WOLFPACK DEFENSE LABS LLC

// PLATFORM 01 — UNIFIED AI CYBER COMMAND

One Console. Ten Agents. Zero Cloud.

FENRIS

Federated Enclave Network Response & Intelligence System

AIR-GAP COMPATIBLE | ZERO CLOUD DEPENDENCY

// OVERVIEW

What FENRIS Does

FENRIS connects your existing security tools — SIEM, vulnerability scanners, patch managers, endpoint protection, firewall — into a single AI-powered operator console. Ten specialized agents run continuously within your enclave, correlating data across all sources simultaneously and delivering plain-English findings with one-click response options. Total triage time drops from 35–55 minutes to under 4 minutes.

10	46	4 MIN	$0

// CAPABILITIES

Ten AI Agents

THREAT

Monitors SIEM in real time. Scores every event 0–100 with plain-English explanation and recommended action.

PATCH

Tracks patch compliance across Windows (WSUS) and Linux (RHEL Satellite). Flags hosts with actively exploited unpatched CVEs.

VULN

Integrates with ACAS/Tenable.sc for continuous CVE inventory. Cross-references against CISA Known Exploited Vulnerabilities.

NETWORK

Monitors Cisco switches and FortiGate for lateral movement, anomalous traffic, and DNS beaconing to known C2 infrastructure.

ENDPOINT

Queries Trellix for suspicious process execution, LOLBin usage, and unauthorized software.

STIG

Runs automated DISA STIG compliance checks and generates XCCDF output importable into STIG Viewer.

ASSET

Maintains a live, auto-updating inventory of all hosts, services, and versions.

COMPLIANCE

Scores your environment against NIST 800-53 Rev 5 controls and generates executive-ready compliance reports.

ORCHESTRATOR

Master AI coordinator. Routes findings between agents, manages human approval queue, generates commander briefings.

// DEPLOYMENT

Built for Your Environment

AIR-GAP / IL4/IL5

Full offline operation. Patch data via media transfer. CVE catalog imported on schedule. All 10 agents fully operational.

ONLINE / IL2

Automatic WSUS/Satellite sync. Live CISA KEV feed. Real-time exploitation alerts. Identical dashboard and agent set.

HYBRID

Mixed environments supported. Mode configured per enclave via single config file. No redeployment required.

// INTEGRATION

Connects to What You Have

- FortiSIEM
- ACAS / Tenable.sc
- WSUS
- RHEL Satellite
- Trellix
- FortiGate
- Cisco Infrastructure
- DISA STIG Tools

// COMPLIANCE

Framework Alignment

NIST 800-53 Rev 5 | NIST 800-171 | CMMC 2.0 | DISA STIG | DoD AI RMF | IL4/IL5 Ready | FIPS 140-2 | EO 14110
